LEFT ON HER DOORSTEP

FOR THIS MOTHER

Mrs. A. G. Tuson, of Livermore, Cal., writes: "I picked up from my doorstep one day a little book in which I soon became very much interested. My little girl of five years of age had been troubled for a long time with loss of appetite, extreme nervousness and undue fatigue. She was all rundown and in a very delicate condition, "This little book was very compre-

hensively written, and told of the new method of extracting the medicinal elements of the cod's liver from the oil, eliminating the obnoxious oil which is so hard for children to take.

'Just the thing,' said I, 'for my little daughter,' and I immediately went for a bottle of Vinol. It helped her wonderfully. She has gained rapidly in flesh and strength, and she does not take cold half so easily.

"I am extremely grateful for the good it has done her, and I hope other mothers who have weak, delicate or ailing children will be benefited by my experience and just give Vinol a trial." N. D. SEVIN & SON, Norwich.

If you were compelled to do all your housework in the way your mother did before you, it would be almost unbearable.

And still many women cling to the ancient soap route when washing dishes.

There's a better way, an easier way, a safer way. GOLD DUST added to your dish-water will make your dishes whiter and cleaner than they ever can be made without it. That's the better way.

GOLD DUST, unlike soap, cleans more than the surface. It goes deep after germs and hidden food particles, and sterilizes everything it touches. That's the safer way.

GOLD DUST does all the hard part of the task without your assistance, because it begins to dissolve and clean the moment it touches the water. That's the easier
